EDUCATION

State University of New York At Binghamton

Binghamton, NY

Master of Science in Information Systems

Aug. 2024 – May 2026

- **Coursework:** AI and Data Mining, Machine Learning, Database Systems, Software Project Management, Statistical Methods, Tools for Data Science, Cyber Security, Web Retrieval

Mumbai University

Mumbai, MH

Bachelor of Engineering, Electronics

Aug. 2017 – May 2021

TECHNICAL SKILLS

Languages: Python, SQL, R, PL/SQL, Bash/Shell Scripting, Java, C++

Frameworks: TensorFlow, PyTorch, Flask, Django, Hadoop, RestAPI

Databases: Oracle, PostgreSQL, MySQL, MongoDB

AI/ML Expertise: AI/ML evaluation metrics, Supervised/Unsupervised Learning, Responsible AI principles, GenAI model evaluation, Data modeling, Outlier detection, LLMs

Developer Tools: Git, Docker, Power BI, SAS, Tableau, VS Code, Excel, Word, PowerPoint

Libraries: pandas, NumPy, Matplotlib, Scikit-Learn, BeautifulSoup, XGBoost

EXPERIENCE

Graduate Research Assistant

Jan 2025 – Present

State University of New York At Binghamton

Binghamton, NY

- Designed scalable **AI/ML evaluation frameworks**, ensuring model reliability across **10+ GenAI** use cases.
- Generated **5+** Responsible AI metrics to assess model performance, bias and compliance across **GenAI** use cases.
- Authored **2 publications** on AI safety metrics and evaluation methodologies for internal and academic audiences.
- Collaborated with **4 cross-functional** teams to align model evaluation with organizational standards.
- Automated **data processing pipelines**, reducing workflow time by **30%** using Python and SAS.

Systems Engineer

Jun 2021 – Mar 2024

Tata Consultancy Services

Mumbai, MH

- Engineered **ETL pipelines** for large-scale data processing with **99.9%** uptime across **30+** pipelines.
- Created dashboards in **Tableau** and **Power BI** to visualize model metrics, reducing reporting times by **35%**.
- Partnered with technical and business teams to deploy **4+ data solutions** in **regulated environments**, meeting **100%** of required **compliance checks**.
- Boosted SQL queries by indexing, query restructuring, and performance tuning, reducing execution time by **25%**.

Data Analyst Intern

Aug 2020 – Oct 2020

Unschool Pvt Ltd & Cityfurnish Pvt Ltd

Mumbai, MH

- Performed in-depth **statistical analysis** on marketing campaigns, identifying trends that boosted ROI by **20%**.
- Assembled predictive models to analyze customer behavior, increasing engagement forecasting accuracy by **15%**.
- Operated **5+ Tableau dashboards**, streamlining data visualization and improving **business decision-making**.

PROJECTS

Employee Promotion Prediction System | *Python, Flask, SHAP, HTML/CSS, Bootstrap* Jan 2025 – May 2025

- Built a web app to predict employee promotion with **82% accuracy** using **XGBoost** and **Flask**.
- Processed **12+** input features using **scikit-learn pipelines** for data cleaning and encoding.
- Integrated **SHAP** to explain individual predictions and visualized **3+ interactive plots** for feature impact, importance, and **prediction probabilities**.
- Launched front-end in **HTML/CSS** and **Bootstrap 5**, reducing form input errors by **30%**.
- Packaged the app in a local environment with **100% model** reusability and input validation across **12+** features.

Survey Application | *Python, Django, PostgreSQL, Docker*

Sept 2024 – Dec 2024

- Developed a **survey platform** for **200+** users with **custom survey creation** and **role-based access control**.
- Optimized **PostgreSQL queries**, improving **backend performance** by **20%** and reducing response time.
- Deployed the application using **Docker**, improving **scalability** by **40%** and reducing maintenance effort by **30%**.
